Cost-effective Sealing Solution

Rod Packing

Emergency turnaround service available

Custom designed for your particular application!

Expect a cost-effective sealing solution with CECO rod packing. Available in a wide variety of designs and materials, CECO packing is custom designed to meet your particular application. Most materials are in stock and ready for immediate production and fast delivery.

With strict government mandates on fugitive gas emissions, your specific requirements demand an engineered solution - CECO Low Emission Packing (LEP®). In most instances, we can retrofit your existing packing cases (with no modifications) to comply with federal restrictions on leakage rates.

High performance polymers!

*Delivering superior products and services to the gas transmission,
gas processing & petrochemical industries since 1964.*
