

DELIVERING INDUSTRY SOLUTIONS SINCE 1964

Compressor & Engine Parts

- Unloading Equipment that is API 618 compliant
- Poppet Valves standard for low-speed units
- Poppet Valves mini for medium/ high-speed units
- Rod Packing engineered for minimum lubrication and low emissions
- Piston Rings & Rider Bands engineered to be reliable & efficient
- Fuel Gas Modulators that provide optimal engine balance
- Hydraulic Push Rods that decrease wear on engine components
- Cylinder Head Precombustion chambers for maximum engine efficiency
- Methane Emission Monitors that are Class 1 Div II
- Bushings & Bearings that are precision manufactured
